MANAGEMENT DISCUSSION AND ANALYSIS**Financial Performance:**

During the year under consideration, there have been several challenges both on the domestic and international fronts. Your Company achieved revenue from operations of **Rs. 44,45,22,091/-** and Profit before Interest and Depreciation of **Rs. 1,30,73,221/-** in the current year as against revenue from operations of **Rs. 47,37,73,879/-** and Loss before interest and Depreciation of **Rs. 29,15,925/-** respectively in the previous year.

During the year under review the company has earned net profits of **Rs. 59,00,327/-** (Previous year loss of **Rs. 94,59,316/-** from business). The financial year 2020-21 has been quite a successful year for the company as far as revenues are concerned. But the production remains below the benchmark. In the year, the outbreak of COVID – 19 Pandemic and the resulting lockdown declared by the Government of India has drastically affected the company's revenue and the production and also the normal working of the company's factory. The Management is in the continuous efforts to recover the revenues and the production while considering the health and safety of the entire staff, keeping in view all the government guidelines.

Leveraging on its strong reputation of Brand "FUBA" for producing high quality products, the company continued to receive orders from existing customers as well as new customers despite challenging market situations.

Industrial Structure and Development:

With the increased digitization now-a-days, technology is both, being created and updated almost everyday. People have started to use more electronics and machineries for their daily assistance than ever before. Such continuous increase in demand is resulting in an increase in the supplies, as all manufacturers want to avail the benefit of the surge. PCBs, being the nature they are, are the base of any electronic machine or gadget. Hence, the demand for the same will only be increased in the days to come.

Opportunities, threats, Risk and Concerns:

The PCB industry is a very clinical industry and is the basic raw material for the whole electronic industry. And since the electronic industry is increasing multifold every year, the PCB market is also increasing in the same proportion. Accordingly, there is no girth of scope and opportunities.

There are many new PCB manufacturers who are entering the market and bringing in new investments and innovations, however in India there are very few, including us, who manufacture top quality PCBs as per the industry requirements and standards. Further, under the "Make in India" campaign of the Government of India ('GOI'), many OEMs have started purchasing domestically rather than importing PCBs from other nations. This trend is expected to increase further in the coming few years. However, the volatility of the raw material prices is something that is to be looked at more keenly industry-wide.

The Industry Association is also in constant touch with the GOI to take steps to promote the domestic PCB industry along with the other industries that provide them the raw materials.

Outlook:

One of the objectives identified by NDA Government to focus on domestic demand driven growth recovery. Market research showed that although India repeatedly referred to "30%" increase over the past 10-15 year period, the circuit board production base in India is very small. While Government campaign "Make in India" has promoted the busines and has impacted company in a positive manner. The management is planning for growth and expansion and working towards to bring new approach and fresh ideas into the company.

We have to invest considerably in reviving the plant and it's operations including refurbishing the machinery, replacing obsolete equipment, infusing working capital, and adding new customers to its existing ones. We will definitely continue to strengthen the PCB edge by timely expansion, for the PCB business to do fine and become stronger.

Internal Control Systems and their adequacy:

The Company has a proper and adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions authorized, recorded and reported

correctly. The internal control is supplemented by extensive program of internal audits, review by management and documented policies, guidelines and procedures.

Industrial Relations and human resources development:

The industrial relations have been cordial and satisfactory. We recognize the importance of Human resources and give full respect for its development and are committed to the development of our human resource. Efforts continue to make the organization a great place to work.

Cautionary Statement:

Facts and figure in the Management's Discussion and Analysis describe the company's projection and estimates may be "forward looking predictions" and it may differ from the results.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit / loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the

related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all the relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulations precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communications.
